🚀 Skills

Javascript

React Native

🚀 Projects

Swamy Jewellery

A mobile app for Android and iOS platforms, focused on providing a chit fund-based monthly payment solution for financing purchases of gold and silver jewelry. The app will seamlessly integrate popular payment options like Razorpay, Easebuzz, and PhonePe, offering customers flexibility to choose their preferred payment method. This ensures convenience, security, and enhances the overall shopping experience with us.

Play Store : https://play.google.com/store/apps/details?id=com.swamyjewellery.app

Sur4plots

A mobile app designed to report missing or abandoned vehicles.
Users can provide details about their missing cars, aiding in identification. The app also allows reporting of abandoned vehicles,
rewarding users who help locate them. This
promotes community support and cooperation to solve vehicle-related issues.

Play Store: https://play.google.com/store/apps/details?id=com.sur4plots

Ayuryogams

Ayuryogams is a mobile app providing information about Ayurvedic Medicines.
Users can browse a list of available medicines, view details about each one, search for specific medicines, and access a backend system for administration. The app enhances user knowledge of Ayurvedic medicines and offers a powerful tool for managing the business.

Play Store: https://play.google.com/store/apps/details?id=com.ayuryogams
